"I am proud to be a part of the Patrons Program at St. Helen. I believe the impact of the program on the school and its students has been significant. St. Helen's has been able to make much needed capital improvements to their building, creating a more secure learning and teaching environment for the students and the teachers. In addition, St. Helen's is focusing on creating a long-range plan for additional capital improvements and furthering their development efforts. It has been my pleasure to help St. Helen with this goal."
